

CHAPTER SPOTLIGHT

# Long Beach City College

Long Beach City College has been working alongside our community for the past year. We have volunteered at multiple flu shot clinics ranging from pediatrics to geriatrics. Our chapter has been involved in organizing donation events for the homeless shelters and providing physical assessments for the underprivileged and the homeless in our community. We have also helped with beach cleanups, cancer walks, hurricane relief contributions, and other community outreach efforts. Our chapter is growing in the number of members and achievements. We strive to create leaders through volunteering, learning and social opportunities while emphasizing on professionalism and communication in order to better the future of nursing.
